...but what you can do for your country...

Here at Black Cat Comics in rockin' Milpitas we know that while there is a never-ending debate on what is and isn't "American," there is no debate whatsoever about the difference between good and evil. Heroes do what is right. Heroes defend what is good. Villains do what is evil. Villains destroy what is good. We're not going to jump into the rabble-rousing, the sabre-rattling, the preaching and the name calling so prevalent across our culture today, but Black Cat Comics will always stand for the same principles as our favorite heroes, and we will always encourage our Cats and Kittens to do the same. Super Heroes represent the very best in all of us. They represent the kind of person we all seek to be: someone who uses their abilities for the betterment of the world, someone who puts themselves in harm's way to protect others, someone who does what has to be done despite all the risks. In today's world we seem to need more people like that than ever before, so here in rockin' Milpitas we use what little influence we have to encourage folks to get out there and be heroes, not villains. That means something different to each individual depending on their personal arch-enemy, so just get out there and be whatever kind of hero your friendly neighborhood needs! You can start just by being nice to the people that you encounter in your everyday life. It doesn't take super powers to smile and say hello to someone on the street, but those simple acts can be heroic deeds to the folks who receive them. Try it out, and you'll be amazed at the difference you can make in the world! Not everyone can be a frontline soldier, but everyone can be a friend. For more examples on how Super Heroes behave, check out some of the awesome new Comicbooks we have ready for your enjoyment this week...

Weekly Comics for the week of
8/16/17

[Astonishing X-Men #2](#) is here, and if you read the first issue then you don't need this review to convince you that you must have this book! You thought this was just another X-Title, but the last page of #1 showed you that this book will have ramifications across the entire Marvel Universe! With a line-up of fan-favorite characters like Rogue, Gambit, Psylocke, and Old Man Logan, plus the stellar creative team of Charles Soule and Mike Deodato, Astonishing X-Men needs to go on your pull list and stay there! Pick up the first issue if you missed it, and make sure you grab this week's #2! - *Causey*

This is book all of us DC fans have been waiting for after reading the one shot's of the Forge and Casting. Scott Snyder and Greg Capullo team up to give us a six issue series that will change the DC Universe forever. In this series we will follow Batman and the Justice League to find out what Batman has been investigating and the Dark Multiverse will be revealed for the first time. [Dark Nights Metal #1](#) is out this Wednesday and this is one you will not want to miss! My mind is spinning thinking of what will happen in this book but I can't wait to find out. - Anthony

We learned last issue that The Ultimate Thor is not in complete control of his new powers. His power makes him rage blindly and mercilessly. Something that may be useful now that he and Thor are going to face The Queen of Cinders. I like that the most jovial Asgardian must deal with a rage that he might not be able to control. Will he eventually cut loose in a Wolverine like berserk rage or can he learn to control his abilities. I'm loving the combination of these three Thors . looking forward to the next big event. Check out [Mighty Thor #22](#) this Wednesday. - Al

The Sandman Oversized Special is a true love letter to Jack Kirby. With work from Dan Jurgens, Steve Orlando, Paul Pope and the King himself, this book highlights the daring adventures of Sandman in 2 mini-stories, including rare works from the D.N.A. Project. If you're a Kirby fan, this is a must to add to your collection. I love seeing how modern writers and artists interpret Jack's work. Jurgens's first story is a true testament to the creative genius of Kirby and Orlando's second story is a tribute to the man himself and his character. Pick up [DC's Sandman Oversized Special](#) today and enjoy! - Francie

Last Week's Top Sellers

4. We can set you up for monthly mail order shipments
5. Each week WE (both owners of the store) PULL your comics before we open
6. You'll NEVER miss an issue
7. We'll keep track of all your purchases
8. You'll be automatically added to our weekly newsletter
9. You'll be able to participate in our Black Cat Lending Library
10. You'll be able to special order anything in print

Interested in Signing up? GREAT!

Here's what we ask of you:*

1. Maintain 5 or more monthly titles
2. Pick up your books every 2 weeks
3. Once a book is pulled for you, you are obligated to purchase it.
4. Keep your list updated so you don't miss out on cool new titles!
5. You must be 18 years or older to sign-up.

That's it! Sign-up online at <http://www.blackcatcomics.biz/subscriptions.html>.

And if you sign up and refer a friend you get a \$50 gift certificate!!!

Yelp it up!

Find us on Yelp 

With our recent move we've lost all the awesome reviews we had on Yelp. Whenever a business relocates they remove the old reviews and treat it as a brand new business. Our reviews look pretty meager! We could [use your help](#) in spicing them up! Thanks in advance!
